

# Foam & Fabric Spray Adhesive

## MCA001

### Features:

- Non-chlorinated spray formula
- Waterproof Glue Seam
- Non-staining
- Fast grab
- Easy to use and versatile
- Web spray pattern

### Properties

Appearance:	Liquid, straw-color
Flammability:	Flammable
Solids:	18.5- 22.5%
VOC % (w/w):	54.7%
Heat Resistance:	170°F

### Packaging Configurations

Aerosol Can  
12 Oz. Net Weight  
12 Cans per Case

### Product Usage

MCA001 is ideal for uneven and porous surfaces. It is water resistant, flexible, and non-staining. It is formulated to be ozone friendly by eliminating all chlorinated solvents.

It comes with a web spray pattern that allows for better coverage over larger surfaces.

MCA001 is designed to be applied to both substrates for optimal results. Spray an even coat of adhesive with at least 80-100% coverage of each surface. Allow to dry 1-2 minutes until the bond line is tacky. Place the surfaces together and apply pressure evenly across the full bonding surface.

For best results: Make sure the surfaces are dry and free of dirt, grease, or oil. Ensure the adhesive and substrates are at 40°F or higher. If surfaces are extremely porous, a second coat may be necessary after the first application has become dry and tacky.

### Storage

Store in accordance with all local and state regulations.

Manufactured for: Vicar International

720 Anderson Ferry Road • Cincinnati, OH 45238 • Toll Free: 800-526-6997
