

Vicar ClearVue

Dependable Clear Vinyl for Marine & Outdoor Applications

Vicar ClearVue is a UV-stabilized clear vinyl program designed for marine and enclosure applications where optical clarity, weather resistance, and fabrication-friendly handling matter most. ClearVue delivers a practical balance of performance and value for fabricators and end users who need a dependable clear vinyl solution without the added cost of premium press-polished products.

Key Features

- ✓ UV-stabilized for exterior use
- ✓ Double-polished for strong optical clarity
- ✓ Anti-blocking for easier handling and fabrication
- ✓ Available in multiple gauges and two tint options

Markets & Applications

- ✓ Marine Enclosures
- ✓ Boat Windows
- ✓ Patio / Porch Enclosures
- ✓ Canopy & Side Curtain Panels
- ✓ Pergola / Gazebo Panels
- ✓ Golf Cart / Utility Vehicle Enclosures

Basic Specifications

Width:	54"
Stocked Gauges:	20, 30, 40
Available Tints:	Clear, Smoke
UV Stabilized:	Yes

Fabricator Tip:

Allow material to relax flat for 24 hours after unrolling and before fabrication to minimize post-fabrication shrinkage. Failure to allow relaxation may result in additional shrinkage, especially when exposed to heat.
