Morbern Marine Collection

The Good, Better, Best Ranking System (hereafter referred to as GBB) is a quality-focused checklist that you can use to determine vinyl upholstery quality when considering a purchase for your home, boat, or automobile.

GOOD (*):

Vinyl rated GOOD is functional and lasting, but may lack the premium qualities of softness, and cleanability.

BETTER (**):

Vinyl rated BETTER will generally have higher quality ingredients leading to longer lasting performance.

BEST (***):

Vinyl rated BEST is formulated with state-of-the-art chemistry leading to improved attributes such as softness, durability, and/or cleanability.

- MGX MorGuard Xtreme™ finish

MGX MorGuard Xtreme™ offers superior stain protection. Common staining agents such as BBQ Sauce, Mineral Oil Lubricant, Sun Screen SPF 30, Yellow Mustard, Lipstick, Ballpoint Pen, Exhaust Soot, and Cola are easily removed with the use of Formula 409®, Isopropyl Alcohol, and water.

Care and Cleaning Instructions

For Normal Cleaning: In general, most common stains can be cleaned using warm, soapy water and clear water rinses. Moderate scrubbing with a medium bristle brush will help to loosen soiling material from the depression of embossed surfaces.

For Stubborn Stains: Use Formula 409® commercially available mild detergent in accordance with manufacturers' instructions. Test cleaners in an inconspicuous area as cleaner manufacturers may change formulas without notice. Full strength rubbing alcohol or mineral spirits may be tried cautiously as last resort on very stubborn stains, if the above suggestions do not work. Indiscriminate use of any solvent or solvent containing cleaner can severely damage or discolor vinyls.
